When Tahmeena stumbles onto John's isolated farm, he has no choice but to take her in. An asylum seeker, she's been badly beaten and speaks no English.

As they communicate through signs, pictures and a gradual understanding of each other's language, John and Tahmeena both begin to recover their faith in themselves and their trust in humanity.

Writer/Director Peter Duncan

Unfinished Sky is a powerful, poetic and sensual love story that peels away layers of hurt and mistrust to reveal the beauty of freedom, hope and choice.
